.....                      .....                      .....                      .....

**READING COMPREHENSION**  
۱. Read the following passage and answer the questions. (۴)  
Panda is an endangered animal. This beautiful animal lives in bamboo forest of China. Humans have destroyed these forests recently. Pandas do not have any place to live or anything to eat. There are very few pandas alive now. The Chinese are trying to make bamboo forests for pandas. They ask everyone in the country to help them.  
۱. Who have destroyed forests?  
.....  
۲. Where do pandas live?  
.....  
۳. Are there many pandas alive?  
.....  
۴. Panda is an endangered animal. True  False

۲. Read the text and answer the questions. (۴)  
We have different school subjects for example English, biology, geography, history and etc.  
We get familiar with different parts of our body and learn how they work in biology. We learn new things about heart, blood, plasma and etc. Heart is the most important organ in our body which sends blood all around the body. Blood carries white cells and red cells and plasma to send oxygen to different organs.  
We study about Earth and other planets in geography. They go around the Sun in different orbits. They have different colors and sizes. We can see the planets with a telescope.  
Jupiter is the largest one. It has more than sixty moons. Learning about planet is really interesting.  
**Write T for true and F for false.**  
۱. We learn about our body in history.  
۲. Plasma is the most important organ.
